

FasTrak

PRODUCT DESCRIPTION

This is an overview placed in the *Portfolio* before your *Product Research and Evidence*. The overview will describe the *FasTrak Product* and explain how it demonstrates a *Learning Stretch* by the student. It will also describe the time put into the product, including time and methods for gathering research to assist in the completion of the *Product*. Further, it will outline any assistance given to you by your *Mentor* or others.

REQUIREMENTS

Description of the Product

Since you may only be able to demonstrate part of the full product to the judges because of a twenty-minute time limit, this describes the *Product* in its entirety.

Description of Effort

Explain how many hours of work went into designing the *Product*. Outline time for designing and planning. Describe setbacks to the process. **List the number of hours or minutes** spent on each part of project development. Finally, list the total number of hours spent on the *Product*.

Materials

List the items needed in order to create your *Product*. After the list, describe how you were able to obtain the items.

Learning Stretch

Explain how you gained the knowledge to complete this product. Did you ask questions of your *Mentor*? What did he/she tell you that was helpful? Did you observe anything at your *Internship* that helped you learn the job? Did you conduct research to expand your knowledge? How does the *Product* demonstrate the knowledge you have gained?
