

Academic

Academics is categorically one of my highest priorities. I have kept up my grades since the beginning of my career in schooling. In elementary school, I received academic award trophies and got straight A's every year. I consistently earned a 4.0 grade point average each trimester throughout all three years at Talbert Middle School. My current cumulative average at Edison High School is 4.17. I have kept this average due to my hard work and dedication that I put forth in every assignment I am given. In addition, I earned a government scholarship for my high scores freshman year on the STAR testing. I received a one thousand dollar scholarship to put towards college. I am very proud of my achievements in school, and I know that the skills and knowledge I have received will help me in any endeavor I may undertake.
